Profile

Hardworking College Student seeking employment.

Bringing forth a motivated attitude and a variety of powerful skills.

Committed to utilizing my skills to further the mission of a company.

Employment History

Python Tutor, Wondercode, Seoul
September 2019 — September 2020

- Worked well independently and on a team to solve problems.
- Served as a friendly, hardworking, and punctual employee.
- Work such as curriculum development, overseas export, lectures, etc. as a freelancer;

Education

BS in Computer Science, Sejong University, Seoul
March 2015 — June 2021

Programmers Dev-course, Seoul
December 2020 — April 2021

- Participated in the first phase of Programmers AI school which was held from November 30, 2020.
- It's an artificial intelligence school focused on 'solving' real problems rather than 'researching' the latest artificial intelligence models.
- Building up basic knowledge in the field of artificial intelligence
- Have the ability to develop data analysis/mechine learning applications
- Explore/select optimal AI models and troubleshoot problems
- Build data pipelines through challenges and individual/team projects.

Extra-curricular activities

Creative Design Competition, 2nd Price
December 2020 — December 2020

- Building a trusted mask management system
- Utilizing the Etherium Web3.js and Ropsten testnets, a system that accurately identifies the movement path of the mask after issuing tokens to prevent the sale of stocks.
- Development of Smart Contract Design and Web Front-End
